

Civic Engagement

Civil Protection First Aider

In the fall of 2021, I started the process to become a volunteer first aider at the Red Cross and Civil Protection.

The two procedures are still in progress but I think of joining the Civil Protection rather than the Red Cross.

I already have a first aid certificate but I still need to be trained in the practices specific to the Civil Protection.

Once this step will be over, I will regularly be called to ensure the safety of participants in various events:

- Races
- Gigs
- Festivals
- ...

I will also try to become an instructor to train new volunteers in first aid.

Humanitarian trip to Ecuador

In July 2022, I will go to Ecuador with 10 other students from ENSEEIHT and 2 others schools.

The mission will last 4 weeks there for 2 missions of 2 weeks.

- The first mission will take place in Puerto Lopes. It is about whales. We will work with scientific researchers. We will watch, identify and register the different whale's species on the Pacific coast of Ecuador.
- The second part of the mission will take place in Ayampe. We will monitor sea turtle's nest, clean beaches, contribute to reforestation and empower local communities.

This mission responds to one UN sustainable development goal: life below water.
